KWICKIN

ESTERIFIED SEED OIL SPRAY ADJUVANT

ACTIVE CONSTITUENTS : 704 g/L Methyl and Ethyl Esters of Free Fatty Acids
derived from Refined Canola Oil and 196g/L non-ionic surfactants

**A biodegradable penetrator adjuvant
to enhance the effectiveness of certain
Herbicides, Insecticides,
Fungicides and Desiccants.**

20 LITRES

HAZARD CLASSES 6.3B, 6.4A HSR002503

SAFETY WARNING: Harmful. Eye irritant. May cause irritation to eyes and skin.

ENVIRONMENTAL WARNING: Avoid contaminating waterways.

PRODUCT DISPOSAL: Do not allow product to enter waterways, drains or sewers. Absorb spillage on inert material such as soil and dispose of in a suitable landfill.

CONTAINER DISPOSAL: Triple rinse container and return to recycler. Alternatively, ensure container is completely empty, burn if permitted and circumstances, especially wind direction allow, otherwise bury in landfill.

HANDLING PRECAUTIONS: When mixing or applying wear protective clothing, goggles or face shield and respirator if risk of inhalation. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after work.

STORAGE: Keep out of reach of children. Store in original container tightly closed and in well ventilated area, away from foodstuffs. Under conditions below 0°C product may become cloudy or thicken, but will liquefy as temperature warms.

FIRST AID: If swallowed DO NOT induce vomiting. Rinse mouth with water and give water to drink. For advice, contact the **National Poisons Centre 0800 POISON (0800 764 766)** or a doctor immediately. If skin, hair or eye contact occurs, remove contaminated clothing and flush skin, hair and/or eyes with running water for several minutes. Additional information is contained in the **Material Safety Data Sheet** which is available from the reseller at point of purchase or visit www.sstnewzealand.co.nz for alternate contact details.

DIRECTIONS FOR USE

Situation	Rate / 100L	Critical comments
Herbicides	250 – 500ml	Kwickin can be beneficial with a wide variety of herbicides. With selective herbicides, use higher rate in low water volumes. Use at 500ml per 1000 Litres where directed on herbicide label. Suitable for use with Aramo®1, Spinnaker®1, Topik®2, and Twinnax®2.
Insecticides	250 – 500ml	Kwickin can assist effectiveness of some insecticides. Use 250ml / 100 Litres with most Synthetic Pyrethroids. Use 500ml / 100 litres where directed on the label. Suitable for use with Ascend®1.
Fungicides	250 – 500 ml	Use where improved spread and penetration is required e.g. On vegetable crops such as onions. Use higher rate in low water volumes.
Dessiccants and Defoliants	500ml – 2 litres	Kwickin can be used where crop oils are recommended. The higher rate may be necessary when plants are subject to severe stress.

Crop Safety Read the directions on the pesticide label. In some situations KWICKIN may reduce selectivity. Care must be exercised when applying KWICKIN on sensitive crops under conditions where plants are subject to drought stress, high temperatures, and high humidity. If in doubt it is a sensible precaution to trial by application to a small area before committing to large scale application.

NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

KWICKIN is a highly penetrating spray adjuvant suitable for use with certain post emergent herbicides, insecticides, fungicides, defoliants and desiccants. It improves the pesticide performance by utilising the excellent penetration effect of esterified vegetable oils in combination with the wetting and spreading characteristics of non-ionic surfactants. Kwickin will reduce droplet evaporation. Kwickin can be used in most situations where an oil based adjuvant is recommended. Read all directions for use on the KWICKIN label and on pesticide label. The pesticide manufacturers directions and recommendations always take precedence over directions contained on this label.

MIXING

Follow directions on pesticide label. Half fill spray tank with water and add required amount of pesticide with agitation. Top up tank with water followed by addition of required amount of KWICKIN and continue agitation while spraying.

CONDITIONS OF SALE: The use of Kwickin being beyond the control of the manufacturer, no warranty expressed or implied is given by SST New Zealand LTD. regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and SST New Zealand LTD. accepts no responsibility for any consequences whatsoever resulting from the use of this product.
